ABOUT ME

I am a passionate and self-motivated learner with strong interests in Full Stack Development, Data Science, Analytics, and Cyber Security. I have completed professional training and gained hands-on experience in web development, data analysis, data preprocessing, and security fundamentals using technologies such as HTML, CSS, JavaScript, Python, and related tools. I enjoy building scalable applications, analyzing data to uncover meaningful insights, and developing secure systems. My goal is to create efficient, data-driven, and secure solutions while continuously improving my technical and problem-solving abilities.
